

# Solar Guard<sup>®</sup> Charge Controller

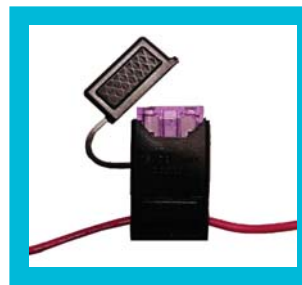

The SolarGuard CC-64<sup>®</sup> charge controller is designed to be used with your Uni-Solar FLX series solar panels. Using today's technologically advanced PWM charging technology, The CC-64 helps your solar charger optimize battery performance and increase battery life. The CC-64 features plug-n-play connections for simple installation, 22" inch fused battery leads, and an impact resistant ABS plastic case. The CC-64 can handle up to 2 FLX-32 solar panels utilizing the Uni-Solar Y-Connector.

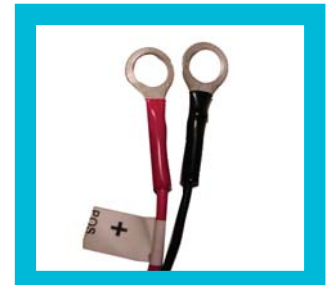

**Model#: CC-64**

SAE Connector for easy connection to FLX Modules

In-Line 5 Amp Fuse

Color Coded Connectors

## Electrical Specifications

Rated Solar Input	4.5	Amps
Max. Input (5 min.)	5.5	Amps
System Voltage	12	Volts
Max. Solar Voltage	30	Volts
Regulation Voltage	14.1	Volts

Includes 2 Year Warranty
